RE: Request for AMOC

(Fueling and Servicing Procedures) Manual Chapter/Section: _____

Subject Title: _____

Airport: _____

Effective Through: (Date) _____

Dear _____

(Sample of Request)

Your airline has adopted as part of its manual certain provisions relating to Inspection Tests and Safety Procedures which are intended to preclude the introduction of contaminated or impure fuel into the airline's aircraft. (Vendor) is unable to comply with the designed subsection of the airline's manual reference above at the designated airport for the following reasons:

(Describe why unable to comply.)_____

However, in order to ensure that an equivalent level of (Indicate fuel quality, safety or security) to that prescribed in the manual, (Vendor) proposes to adopt the following Inspection Procedures at that airport until the date above when it will be in compliance with the manual:

(Describe substitute procedures. For example, who will be responsible and accountable for it? How will the procedure be controlled?)_____

Accordingly, (Vendor) hereby requests that it be granted an alternate means of compliance / procedure by Envoy Inc. from the provisions of the manual referenced above.
